Support to fit your family’s needs!

Why are these so great?

basic enrollment in Kid Communities

- ✦ Your child gets the **expertise** of a reading specialist and coach who has helped almost 400 children, from ages 4-16, find success on their literacy journeys.
- ✦ Each child **creates their own tools** that will support their independence in carrying new skills over to learning opportunities in the world. Tools can include a spelling guide, writer's craft notebook, writer's toolkit, and more!
- ✦ Weekly classes are carefully planned to **build on previous lessons**, building a strong foundation for a confident learner!
- ✦ Classes are relaxed to support a variety of learning styles and preferences.

- ✦ As a homeschooling parent, you've got **enough** on your plate! I save you the **headache** of trying to figure out how to build on what your child is learning in class...I'll **do it all** for you! Don't you already do enough?
- ✦ You will have access to activities, games, and practice that will help your child **retain** what they are **learning**. I take all the guess work out for you!
- ✦ In the Word Wizards 1 and 2 classes you will receive **bonus lessons** and skills that are *not even taught in class*.
- ✦ Parents get a "**sneak peek**" ahead of class, so you can plan your child's learning experiences to **maximize learning**.
- ✦ All this for less than the cost of taking your family out for ice cream!

ultimate scholar success path

As a busy homeschooling parent, your life just got a **whole lot easier!** For a commitment of just 2 hours a week, your child takes a class with a reading specialist, strengthens their learning through weekly follow-up support, AND has a personal tutoring lesson tailored just for them!

- ✦ Tutoring can help your child with a weakness where they would benefit from a higher level of support in that skill...struggles with spelling, decoding bigger words, fluency...
- ✦ Tutoring can build upon something your child is passionate about...writing a novel, using persuasive writing to promote social causes, developing characters for a comic book series, recording inventions, getting feedback on their writing (revising and editing)
- ✦ You can share this plan with 2 of your children! Maybe one child is interested in a class, and your other child needs private tutoring (at the reduced rate).
